
Error While Injecting Dll Into Target Process 3d Analyze

I have the same problem with 3D Analyze "Error injecting dll into target process". I have tried various things in this thread and also checked... I am using Windows 7 Home Premium x64 and have installed Visual Studio 2010 Ultimate. I think the problem is that there are some executable dlls that don't work on Windows and I see this when the executable (e.g. dll) doesn't run when Visual Studio starts. I don't know how to fix this and I think I need help! Please help! If you are using "debugger" with the "debugger" compiler in Visual Studio, you must enable debugging.
