The staff has been working to restore and resurface play equipment from a major summer construction project that enabled the playground to reopen to the public in June. The newly established outdoor play area welcomes children of all ages and abilities in a safe and inviting environment where mutual enjoyment and respect is evident. This playground provides a wide range of play features (infill) such as climbing structures, balance beams, slides, and other fun, safe equipment (softball/baseball

diamonds for 2 groups of four each). It is the first of its kind in the District and is an excellent example of DC fostering and promoting inclusive and safe play environments for children of all abilities. Major construction jobs in the area that would have caused the playground to remain out of service for a significant amount of time or demolished the playground have been prevented by DC's Department of Parks and Recreation. That program not only protected the playground from destruction, but also created an area for children to get more naturally active in, and children are becoming more active as a result. Parks and recreation is committed to providing more and safer public space for all residents in DC. Inspired play is in the heart of what makes us human. Children play because they want to explore, have fun, and express themselves. If your nonprofit is thinking about expanding your volunteer program or adding additional staff, consider the benefits of providing children and youth

Let $b_n=\frac{a_{n+1}}{a_n}$. Then $$ b_n=\frac{a_{n+1}a_n}{a_{n+1}}=a_n $$ Thus b_n is constant and equal to a_n.
