Banaras Hindu University professor of Sanskrit Jayanta Chandra Banerji, an atheist, was murdered in Banaras district on March 13th. He was attacked while speaking at an event organised by the religious wing of the RSS. Jayanta Banerji was laid to rest with full state honours at a public ceremony in Bagaha near the national university where he was attacked. In the hardline city of Varanasi on the banks of the holy Ganges River, the city's media recalled that Jyanta Banerji was murdered on an occasion of religious significance - the evening when all the gods are said to be present. His funeral was attended by a large congregation of RSS and BJP leaders and volunteers. Banerji was attacked as he finished speaking. The lightness of oarlock is measured by the number of ounces of lead in one of its halves. Thus a light oarlock will be constructed of a light material having a small percentage of lead, a heavy oarlock will contain a greater percentage of lead and a very heavy oarlock will contain 100% of lead. The heavy oarlocks are considered unsatisfactory. A very heavy oarlock which is constructed of steel and contains a ratio of lead to steel of 1 to 12 will possess the desired strength for an oarlock and require a comparatively large amount of heavy metal. Other oarlocks, for example the heavy oarlock of this invention, are light by reason of their comparative lack of heavy metal content. The heavy oarlock of this invention is of the latter type. At the present time most oarlocks in use are made of lead. The use of lead requires protection from its toxicity
